

Gesmatik's advanced solution for signed receipts of PPE delivery digitalization and management

Occupational Health and Safety managers ask themselves

- 🌿 Are workers using PPE?
- 🌿 Are workers using PPE correctly?
- 🌿 Do they use the PPE assigned for each task?
- 🌿 Is there a record of the delivery of PPE?
- 🌿 When a worker uses the first aid kit, are prevention services informed?
- 🌿 Do my PPE generate waste?
- 🌿 How do I manage waste?

In compliance with Prevention of Occupational Risks Law , which aims to promote the safety and health of workers through the application of measures and the development of the necessary activities for the prevention of risks derived from work, the company makes available to the above-mentioned worker the following means of collective and individual protection:

3M PELTOR OPTIME III Series Hearing Protector

The employee is aware of the mandatory nature of its use and must be responsible for the correct care of the protective equipment provided by the company.

By signing this document, the worker certifies the delivery of the protection equipment as well as declares to be familiar with the technical data sheet of the equipment delivered and the instruction manual.
